              Edit Spreadsheets  
              Using Internet Service

**RECOMMENDATIONS:**

Available if requested

**PRESENT EMPLOYMENT STATE:**

I am an Agronomist specialized in Agricultural Economis & Rural Development with a Master of Science «Integrated Development and Management of Rural Areas». My Graduate Study Title is: "Possibilities and limitations of agrotourism exploitation of the area of the national park of Tzoumerka mountains". From 2005 I work as a researcher - external collaborator of the Agricultural University of Athens in research programs. I also work for the FLINT project that provides an updated data-infrastructure needed by the agro-food sector and policy makers to provide up to date information on farm level indicators on sustainability and other new relevant issues. As a freelancer I am trying to evolve my skills by undertaking work within my capabilities. I specialize in field research with interviews and data processing.
